Energy performance certificate (EPC)

Flat 3 2, Richmond Avenue BOGNOR REGIS PO21 2YE Energy rating

Valid until: 11 July 2026

Certificate number: 8808-3723-2129-6197-2363

Property type Top-floor flat

Total floor area 27 square metres

Rules on letting this property

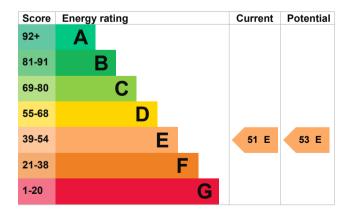

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance</u> for <u>landlords</u> on the <u>regulations</u> and <u>exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-quidance</u>).

Energy rating and score

This property's current energy rating is E. It has the potential to be E.

<u>See how to improve this property's energy efficiency.</u>

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature Description		Rating	
Wall	Cavity wall, filled cavity	Good	
Roof	Pitched, 150 mm loft insulation	Good	
Window	Fully double glazed	Average	
Main heating	Room heaters, electric	Very poor	
Main heating control	Programmer and room thermostats	Good	
Hot water	Electric instantaneous at point of use	Very poor	
Lighting	Low energy lighting in all fixed outlets	Very good	
Floor	(another dwelling below)	N/A	
Secondary heating	None	N/A	

Primary energy use

The primary energy use for this property per year is 446 kilowatt hours per square metre (kWh/m2).

Environmental	impact	of this
property	-	

This property's current environmental impact rating is D. It has the potential to be D.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.

An average household produces	6 tonnes of CO2

This property's potential 2.0 tonnes of CO2 production

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

Environmental impact ratings are based on assumptions about average occupancy and energy use. They may not reflect how energy is consumed by the people living at the property.

Changes you could make

This property produces

Step	Typical installation cost	Typical yearly saving
------	---------------------------	-----------------------

2.1 tonnes of CO2

1. Increase loft insulation to 270 mm £100 - £350 £26

Paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Estimated energy use and potential savings

Based on average energy costs when this EPC was created:

Estimated yearly energy cost for this property	£615
Potential saving if you complete every step in order	£26

The estimated cost shows how much the average household would spend in this property for heating, lighting and hot water. It is not based on how energy is used by the people living at the property.

Heating use in this property

Heating a property usually makes up the majority of energy costs.

Estimated energy used to heat this property

Type of heating	Estimated energy used	
Space heating	2987 kWh per year	
Water heating	858 kWh per year	
Potential energy savings by installing insulation		
Type of insulation	Amount of energy saved	
Loft insulation	168 kWh per year	
Solid wall insulation	66 kWh per year	
Coving analysis this property

Contacting the assessor and accreditation scheme

This EPC was created by a qualified energy assessor.

If you are unhappy about your property's energy assessment or certificate, you can complain to the assessor directly.

If you are still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation schemes are appointed by the government to ensure that assessors are qualified to carry out EPC assessments.
