1% for the Planet

We are proud to announce that going forward, WRAP Space will be donating 1% of revenue to **Sussex Bay**.

In the words of our Co-Founder Ed:

"One of our core values is sustainability, we are committed to sustainable operations and doing our bit for conservation and the environment. We are delighted to have the opportunity to support Sussex Bay, and their partners in their laudable endeavours. We looking forward to our continued involvement and supporting wherever we can in the years ahead".

The income will be shared initially with **The Sussex Dolphin Project**, to help fund a dedicated research vessel, which will enable much more valuable scientific research of the Sussex Bay marine environment.

Work. Life. Balanced.
